

Coast Christian School is an infant through eighth grade non-profit private school located in Redondo Beach, California. It was established in 1977 with the purpose of developing moral and academic excellence in children and youth of our communities. Our goal at CCS is to raise up leaders dedicated to serving others, shaping culture, and changing the world.

CCS students are empowered to serve their communities by building relationships and instilling hope for those in need. Our students regularly serve residents in retirement homes, assist and serve families who live in at-risk areas, and are developing an educational partnership with Mercy's Village International in Northern Uganda.

The proceeds from this tournament will fund programs to ensure our students are further equipped spiritually, academically, and physically to invest in the lives of others. In addition, the monies raised will provide tuition scholarships for those less fortunate. Join us as we invest in children so they can invest in others.
